

Solve.Care Stands With Ukraine

On the ground assistance for Ukrainian families seeking refuge

Solve.Care Team is currently on the ground in Western Ukraine, working with local city authorities to support families displaced by the war and seeking refuge in Western Ukraine and neighboring countries.

Here is what Solve.Care Team on the ground in Ukraine is doing

1. We are converting gyms, schools, churches, and government buildings into shelters. We have already secured and converted two gyms into 109-bed shelter.
2. We are providing necessities such as a safe sleeping space, food, blankets, beds, and personal hygiene products.
3. Very importantly, the Solve.Care Team has set up a supply chain to bring in supplies from Poland, Romania, and Hungary.

We have a lot of support locally

We are not doing this alone. We have received TREMENDOUS support from local authorities, volunteers and even people who were displaced themselves. They all want to help. Safety is an issue, but volunteers are ready and willing regardless of risks. It is about humanity banding together to fight barbarity.

We are doing this because we can, and we must

Solve.Care is not an NGO or a government organization. We are an IT company, and we have a very capable team on the ground who wants to support their beloved homeland. And the team has the resourcefulness and organizational skills to implement this quickly and effectively.

Our three simple principles

Families who need help are NOT helpless. They are competent, capable humans with families of children and young adults. Many are professionals like you. A week ago, they had plans for summer vacation in Barcelona or Berlin. Now they are escaping missiles and bombs. They need our help, not pity. So, we adopted these principles:

1. Ukrainian families are NOT refugees in their own country. They are displaced by war, but they are still in Ukraine, in their homeland, among their own people.
2. We will not allow anyone to become a label. We will refer to everyone using their name.
3. We are here to provide shelter, necessities, and time to decide what to do next

If you want to help Ukraine, then please help now

Number of people in desperate need is growing every day, as hundreds of thousands are being displaced by this insane war. We need more resources so that we can support a lot more families and set up more shelters in the south-west of Ukraine, near borders of Romania, Hungary, Slovakia and Poland.

Every cent you choose to give will be used for housing and feeding families.

No middlemen, no administration costs or overhead, (we are a blockchain company after all).

Be careful. Don't send funds to wrong place or entities or addresses

ARPI, a non-profit in Washington DC (www.arpi.org), has agreed to handle donations such that your donations from the US can be tax deducted as appropriate. ARPI is supporting this initiative without any fee, commission, or cost. Thank you Dr. Randall.
